

# No Extra Cost HD (WHEN SUBSCRIBED TO THE EQUIVALENT NON-HD CHANNEL)

Must be subscribed to a package that includes English Essentials and equivalent standard-definition channel (if available) to receive high definition (HD) version. Current customers that subscribed to Shaw Direct before October 1, 2012 receive the standard-definition channels outside of their home province. To access the high-definition equivalents, customer would need to add the Timeshift bundle.

HD channels require an HD receiver and elliptical dish. Channels broadcast in MPEG-4 require an HDDSR 600, HDDSR 605, or HDPVR 630 receiver.

Channels broadcast in MPEG-4 and on our 3rd satellite require 3rd satellite access. To find out if you need an upgrade, simply press the GUIDE button on your remote, navigate to channel 988 and follow the onscreen instructions.

Channel listings are as offered on [www.shawdirect.ca](http://www.shawdirect.ca) and may change at any time.
